

Inverness Campus masterplan phase 2

Introduction

Welcome to this second public exhibition of the exciting proposals for Phase 2 of Inverness Campus.

The Campus is a world-class business location with high quality facilities for businesses, researchers, academia, and scientists.

The first phase of the Campus has now been developed out and Highlands and Islands Enterprise (HIE) will be submitting a planning application for Phase 2 soon.

We presented the proposals for Phase 2 at a public exhibition in late January. These boards can be viewed online via the QR code below.

We received a range of constructive and useful feedback from those who regularly use and enjoy the Campus and the wider community.

It is the purpose of this second public exhibition to provide our responses to that feedback and explain how the Campus will move forward from here.
